Enhancement of cyber educational system of Montenegro

IT Conference is national ICT Conference in Montenegro. Representatives of Montenegrin universities, University of Donja Gorica (Prof. Ramo Šendelj) and Mediterranean University (Assistant Prof. Ivana Ognjanović), presented ECESM project- main goals and current achievements.

All participants showed high interests and expressed high motivation and willingness to participate at upcoming training events aimed on raising awareness in cyber security among citizens, as well as for specialized trainings focused on ICT professionals.

Also, on Friday, 27th two papers were presented showing current results within WP1 and WP2:

I. Ognjanović, R. Šendelj, I. Ognjanović, *Cyber security awareness in Montenegro*, IT Conference, Žabljak 2015, Montenegro

J. Ljucović, I. Ognjanović, R. Šendelj, *Analysis of cyber security educational system in Montenegro*, IT Conference, Žabljak 2015, Montenegro
