INFOFEST 2016, Panel: Cybersecurity is a joint responsibility

26.septembar 2016., 09:30-11:00h,

„Avala&Villas“ Hotel, Budva

After five years, Infofest returned to the hotel Avala Resorst & Villas where, back in 1993, first Festival of IT Achievements was held. This 23rd Infofest assembly passed at the level of organizational and program quality to which participants are accustomed.

The official participatory status had 42 companies and institutions. In five days of intensive work as much as 31 presentations of new solutions and technological innovation carried out. As special programs, four panels were held (“Cyber Security – a Joint Responsibility”, “Digital Society and Operational Achievements of Electronic Government”, “Auction of Radio Frequency Spectrum” and “Digital Transformation of Industry and Building Digital Companies”) and two advisory (“Sport as an IT domain” and “Digital Territory of Post”).

Special programs in the framework of Infofest 2016 were the 14th International Conference of the Regulatory in the Field of Electronic Communications, then the ITU Regional Development Forum for Europe, Annual Meeting of the ICT Clusters of Balkan Network and Black Sea countries and the third TEMPUS Conference “Cyber Security in the Knowledge Society”. Infofest had two invited themed presentations (“Open Source in Montenegro – Challenges and Opportunities” and “Time of Digitization – Internet of Things”).

Infofest 2016 recorded 1,106 registered participants from 29 countries.

PANEL: CYBERSECURITY IS A JOINT RESPONSIBILITY

During this year's INFOFEST, Ministry for Information Society and Telecommunications organized a panel "Cyber security is a joint responsibility".

WELCOME

Kenan Durakovic, General Director for Information Infrastructure, Ministry for Information Society and Telecommunications made a welcome speech and a short introduction expressing wishes for successful panel.

PRESENTATIONS AND DISCUSSION

Panel speakers were Kenan Durakovic (Ministry for Information Society and Telecommunications), Davor Kodrnja (Symantec), Dusan Krkotic (CIRT-ME, Ministry for Information Society and Telecommunications) and Dejan Abazovic (Central Bank of Montenegro).

Through discussion, the panel considered innovative solutions and approach to cyber security, and the latest threats and incidents in cyberspace.

Dusan Krkotic, representative of CIRT-ME/MIST, held a presentation on the activities of National CIRT of Montenegro, threats in Montenegrin cyberspace and different MIST projects in this field, including ECESM TEMPUS Project.

OBJECTIVES

One of the strategic goals that has been recognized by national and EU documents is to strengthen public-private partnerships. In this spirit, the panel focused its activities in this sphere and considered proposals for forms and ways of improving existing and developing new cooperation.
