Enhancement of cyber educational system of Montenegro

Monday, 21st November 2016

First day of the meeting was aimed on analyses of improved Master study program in Cyber security in Universities in Montenegro and importance for new generations of students as well as the whole population in Montenegro.

Participants discuss about the analyses of Sustainability indicators: the recently organised 1st Cyber Security Forum in Montenegro, in cooperation with USA Embassy in Montenegro, Municipality Nikšić and Tehnopolis in Nikšić was first event of such kind in Montenegro, which aroused great interests from all media at national level in Montenegro. Such event could be traditional in October, as it is the cyber security awareness month in United States. MID have found such event a chance for new projects ideas in cooperation with ministry of Education, Universities and other community at national level, which could have positioned the ECESM project as very optimistic indicators with long-term sustainable effects at national level in Montenegro. The

Tuesday, 22nd November 2016

The second day of the meeting was focused on overall financial management at MID and the analyses of prepared documentation (Travel Costs and all supporting documentation). After the lunch break participants reviewed the cross-matching of Intermediate Report results with achieved results/ corrections/ indicators and the Final report analyses of financial documentation, due to close deadline to submitting all supporting documents to EACEA.

Activities during the rest of the day were all focused on detailed analyses of:

- prepared documentation for Travel Costs:
 - Individual Mobility Reports,
 - Proofs of all travel costs,
 - Additional proofs of payment,
 - Additional proofs how EACEA rules were respected,
 - Proofs about payment of daily allowance, etc.

All participants agreed about joint activities on preparation of Final Report.
