Enhancement of cyber educational system of Montenegro

Minutes: Introduction of WP3 training for ICT professionals

Thursday, 1st October 2015

**Akademija Znanja Budva
Budva, Montenegro**

ECESM representatives:

Ramo Šendelj, UDG
Ivana Ognjanović, UDG
Igor Vujačić, IMTM
Nada Rakocevic, CEM

ECESM representatives, 4 of Montenegrin partners, used presence of a lot of companies at Infotest to present WP3 trainings to them, and attract them to attending trainings. 13 company representatives attended this training.

First part of this venue was oriented on general information about ECESM project. Montenegrin partners tried to introduce project to participants, with highlight on main objectives, achieved results and impacts, as well as results that should be achieved in future.

The second part of meeting, Ms. Rakocevic used to emphasize importance of cyber security for companies in the modern era, with examples of the current trends and problems that companies in Montenegro are faced. As the most important thing to be up dated and ready to protect company business systems, Ms. Rakocevic pointed out the education of employees.

After short, coffee break, Prof. Šendelj continued the meeting with introduction of planned trainings. He spoke about organization, planned dates, host institution, and gave short biographies of international lectures and course content. More detailed information about each course individually, was presented by PhD Ivana Ognjanovic and MSc Igor Vujacic. The planned trainings are given in the table below
