Enhancement of cyber educational system of Montenegro

Dissemination: ECESM project presentation at Radio Atlas

Podgorica, Montenegro

Friday, 24th June 2016

Participants:

Srdjan Jovanovski, Mediterranean university

Professor Srdjan Jovanovski presented topic of cyber security and ECESM project at the popular radio that is most popular for younger generations. Auditorium was introduced to cyber security threats and all dangers that can be met in virtual world. Auditorium was also introduced to cyber security and its impact on everyday life. Also it is noted that as a project result, new master program will be introduced and anyone with enough previous knowledge and interest can improve their skills and knowledge regarding cyber security.

Audio in local language can be downloaded [here](#).
