previous knowledge, teacher competences, gained new knowledge and meeting trainees' expectations. It was close-ended questions, on which the participants should evaluate each category from 1(bad) to 5(excellent).

Participants expressed the highest level of satisfaction with the Lecture topics and were impressed with all details and information covered by the lecture. The survey results are summarised in the Graph below.

Furthermore, one part of the survey had open-ended questions, related to critics, comments and suggestions. General comment of all participants was related to their willingness to participate at trainings conducted by the same lecturer and related to the same topic.
